Fein Audio V3

The concert loudspeaker

- high-resolution line source
- impressively deep basses
- crystal clear mids
- brilliant highs
- highest dynamics
- unaltered reproduction of the original acoustics
- highly accurate room resolution of the acoustic sources

Conclusion:

A loudspeaker that realistically reproduces the concert hall / stage in your home.

A loudspeaker that gives a lot of pleasure for a long time.

It is manufactured in our German manufactory in small series, with

- high flexibility for the customer
- permanently high quality standard
- CNC milled housings
- individual features on request
- returnable shipping crates

Service:

- individual adjustment of the loudspeakers to your listening room by the DSP
- availability in any RAL colour (except the front)
